Dear Customers and Friends,

We wish to welcome you to our 31st Annual Bull Sale!

It's been a great year for cattle markets and, with cattle numbers the way they are, it looks to continue. The fall run had it's ups and downs, but the backgrounded calves selling now are at historic highs and Char-cross calves seem to be topping the market in dollars per head.

Grass and hay were decent for us this year --still purchasing a good deal of the winter feed but not near as much and not nearly as high-priced. We took the majority of the cowherd East River last year to winter. One destination had a really tough winter and 275 of the mature cows came back in less than ideal shape. We lost a couple cows there and 4 more after they got home. Thin cows don't milk well and, frankly, it hurt calf performance. Lessons learned.

We also lost a few more calves than usual during "spring swimming lessons" that the cows insist on giving when living on the Cheyenne River. We didn't flood much, just bad luck and cold water mostly.

The bull calves this year demonstrated excellent compensatory gain on the CHS Bull Challenger pellet. We've used this program for 12 years now, along with free choice hay. It develops the calves well, without over-finishing them or causing foot problems. Disposition on this set of bulls is outstanding. They've almost gotten too gentle, as it's often a bit hard to get them to move! Kandi liked taking some credit for that in the past, but since she has been pretty much out of commission the last year after breaking her leg and John and Joel have been far too busy to "tame" them down, we must be doing something right with our breeding program. We couldn't say that about the first Charolais bulls that walked on to this ranch 35 years ago. Calving ease, docility, polled genetics (to our knowledge there is not a horned bull in the offering) and eye appeal have come a long way in the breed the last 30 years --and particularly in our herd!

This year our Producer of the Year is Mitch Peppel and his young family, from Herrick, SD. They sell an outstanding set of backgrounded calves every year out of Cheyenne Charolais bulls. This is good for a \$2000 credit. Thank you to the Peppel family and a special thank you to the past recipients. Our program is built on repeat customers' satisfaction with our bulls, and we thank you all so much for your continued support. Over the past 31 years our bulls have sold to outstanding commercial cattlemen in 7 states! We appreciate each and every one of you.

Please be sure to register with Philip Livestock prior to the sale and view it live on Cattleusa.com if you cannot attend. Your satisfaction with bulls bought in person, on the internet or by proxy will be fully guaranteed just the same. We look forward to seeing you on sale day!

Sincerely,

Joel, Kandi & John Deering

We welcomed two beautiful new little's to the crew this year! Granddaughter Emma Grace and Great-Grandson Jaxon Ryan!

We can't forget our new litter of grandpuppies. Mom and Dad are busy training "Kujo" (second from the right) while his siblings are off on other adventures.

Hard To Forget is an outstanding son of Deliverance. His sons are above average in all ways and I've been very impressed with them.

Daughter Sheridan graduated in May 2023. We miss her dearly since she left for college in the fall to pursue a career as a Vet Tech. Thank goodness Torrington isn't too far from home!

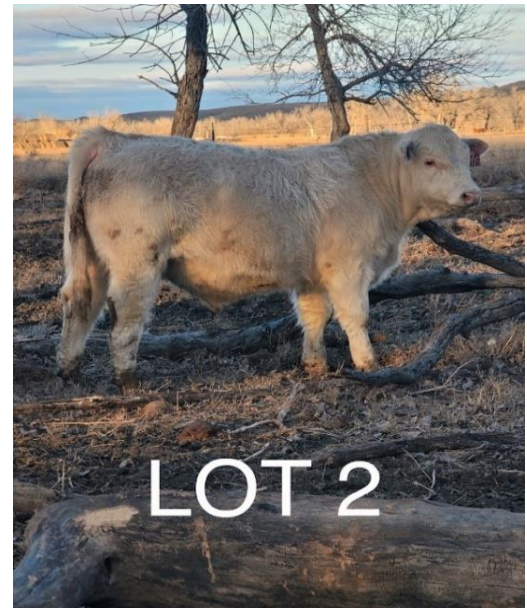

DISPOSITION SCORE

We are including this on every lot – disposition is a big priority and these scores are my own assessment from feeding by hand twice a day and working these bulls several times. Disposition also included in the guarantee!

Scores 1 – Nuts
 2 – Wild and/or Mean/High-Headed
 3 – Average; Normally mild but could act up potentially in the chute or if handled rough
 4 – Above Average
 5 – Excellent; has never shown at any time, anything but “Happy Bull” behavior
 5+ Pet! Might need a stick to get him out of the way, likes to get a scratch now and then!
Definitely no “1” or “2”s in the sale!

2 YEAR OLD'S

This is a sound, very green group of bulls that were on dry pasture and lick barrels until Feb. 1, when we started them on ear corn and good hay. We will take care of these guys until May just like the yearlings and they'll continue gaining to 15-1600 pounds and be ready for heavy service. All will be semen and trich tested prior to delivery. If you have a lot of cows to cover in big country, these sound, gentle, eye-appealing bulls will sure do a nice job for you.
